*Course requires a state, national or certification exam	

Parents: Please submit completed form to the principal of the student's school of enrollment. This exemption must be requested annually.

I, _____ (parent/guardian) request that
my child, _____ be excused from participating in
reproductive health and disease instruction in _____ class.

I understand I am requesting the school to excuse my child from reproductive health and disease curriculum required by course standards that may be assessed on state, national or certification exams. I further understand that instead of receiving instruction in this unit of reproductive health and disease education, my child will be moved to another setting when the curriculum is being covered in the classroom. The student may be required to complete an alternate assignment deemed an appropriate substitution.
